Chairman's Message

M.R. International School is not just a school or infrastructure for me. It is the personification of the vision that has kept me active and fired for the longest time.

In our school days there were hardly any schools of repute in town. Students were deprived of quality education, from then only I had dream of bringing change in education conditions of our area. With the vision of spreading light M.R. Citi School, Balachaur came into existence in 1998.

Having successfully completing 18 years of instituting quality education in M.R. Citi School I thought of taking one more leap and transformed a long awaited dream of mine into reality named M.R. International School, Panam.

M. R. International School is a learning destination where learners can access international standards of education by staying in their own city and will not have to migrate in search of quality education.

We focus on imparting value based holistic education with standardized teaching methodologies. For ensuring ideal teaching learning process faculty development programmes are regularly conducted.

We seek to unlock the building talent by providing a thriving, dynamic, supportive and challenging environment and help in building responsible citizens and actively promote community responsibility. We look forward as partners in our parents, where we shall commit to work together to build good relationship within and beyond the school gate.

Let's join hands to make learning enjoyable and rewarding for our tommorrow's citizens.

About School

We introduce the M.R. International School, Panam

On 10th April 2017 M.R. International School, Panam was established by Chairman Ramji Dassji under the management of Mansha Ram Memorial Charitable Trust.

This school is an addition to the 18 years long journey of imparting education and wisdom which was founded by Mr. Ramji Dassji in 1998 in the form of M.R. Citi Sr. Sec. School, Balachaur.

Carrying forward the legacy M.R. International School, Panam is a co-educational English medium, forward thinking school committed to provide a challenging, dynamic, relevant and coherent curriculum which promotes lifelong learning and produce responsible, independent critical thinkers and learners who are the owners of courage, sensitivity, integrity and rationality.

Our school campus of 8 acres caters to students from play school to Grade VII.

We learn about life...

Education is preparing a child for life. It helps an individual in becoming better human being. We in M.R. International as instructional leaders focus on offering a conducive environment where everyone associated with school grows mentally, physically and spiritually.

We follow the syllabus as prescribed by CBSE. It is our constant endeavour to direct each child to become a motivated lifelong learner. In our school we are pledged to consider and nurture each child. Here weak is motivated, average is addressed and gifted is challenged.

Education System

Less as instructor and more as guide and facilitator our committed and dedicated staff continuously keep on discovering and considering multiple intelligence hidden in every child through innovative, interesting and interactive classroom methodology.

Student's progress made towards a given educational goal is assessed regularly through different types of tests and worksheets.

Effectiveness of teaching learning process is evaluated periodically and remedies are provided for any deviation found.

To capture this golden period, school gives students the right amount of stimulation and challenge in all areas of development. Therefore we work on the whole brain learning for every child.

Champion's Facility

CHAMPION'S

We learn to stay healthy...

In today's life children are spending less time playing physically, mixing with different generations, creating imaginary games. Many are becoming clumsy, overweight and less physically healthy as their leisure time is spent in the digital world.

It is important for parents and teachers to bring children back to the playground. M.R. International School has designed unique sports facilities to bring back a child's participation in sports.

Library

The school features a well-equipped library which provides quiet and tranquil environment where children can come to satiate their quest for knowledge. School Library has more than 3500 books from story books to literature, encyclopaedia, science, and fiction in English, Hindi and Punjabi languages. With the aim of inculcating a lifelong passion for books and knowledge, we encourage all students to make the most of their library sessions.

LIBRARY

Dance and Music

Through dance and music children learn to communicate freely with their voice, face and body. They learn to express themselves with confidence and help them in becoming more imaginative, self aware and global citizens. MRIS provides platform to its students to freely express themselves.
